Skills

Goals

My goal is to become a front-end developer with a keen eye for detail. I want to create exiting web-solutions with engaging and satisfying UI- and UX-design. I'm currently studying Multimedia Design at KEA - my 3rd semester is all about front-end, and I'm eager to learn more and become better at every aspect of the front-end spectrum.

Education

Multimediadesign, KEA	2020 – 2022
Front-end design, UI- & UX-design, JavaScript, HTML, CSS	
Office-assistant, public administrations	2017 – 2019
Intern at Hvidovre Kommune Administrative work, telephone service	
Nørre Gymnasium, STX	2012 – 2015
5 A-level subjects Danish, French, English, Spanish & History	

Experience

Shop assistent, part time	2019 – 2021
Bog & Ide, Rødovre Centrum	
Intern at Hvidovre Kommune	2017 – 2019
Course in assertive communication and conflict management Course in presentation techniques	
Shop assistant, part time	2017
Orion, Rødovre Centrum & Field's	
Shop assistant, full time	2015 – 2016
Orion, Rødovre Centrum & Field's	

About me

As a person, I'm outgoing, positive and curious. I'm fine with working both individually and in teams depending on the task at hand. Last but not least, I'm not afraid to ask questions, if needed.

Besides front-end design, I have a passion for photography, illustrations, and playing around with visual expressions. Personally, I love the combination of creativity and "nerdy" code.
